

# Double Slings

- > **HFS Double Handle Slings model #HFS – D100** are specialized manual handling aids designed to support the lifting, moving, and transporting of heavy or awkward objects, especially in industrial environments.
- > These slings feature two handles on each side, enabling two workers (or more) to coordinate their efforts and share the load, promoting better weight distribution and control during lifting operations.

## FEATURES:

- Rating – **100kg WLL**
- Minimum Breaking Load – **1000kg**
- Factor of Safety: In excess **10:1**
- Webbing Belt Strap – **50mm simplex x 1500mm long as standard**
- Certification: **CE Marked, Safe Use Instruction Sheet**
- Product Code: **HFS – D100**

## INDUSTRIES AND COMMON USES:

**Oil and Gas Industry:** For handling and moving of pup joints, chicksans, IBOP valves and fishing tools as well as pipe, tubing sections and other general deck cargo lifting requirements

**Construction:** For handling lighter construction equipments or tools.

**Warehousing and Logistics:** For moving boxes, parcels, and other goods in storage areas or during loading/unloading.

**NOTE:** Lift Assist products are designed for manual handling purposes ONLY and must NEVER be used as part of any mechanical rigging or lift operations.
